### **INDEPENDENT AUDITORS' REPORT**

To the Village Council of The Village of Millersburg Millersburg, Michigan

We have audited the accompanying financial statements of the governmental activities and the business-type activities of the Village of Millersburg as of and for the years ending March 31, 2006, as listed in the table of contents. These financial statements are the responsibility of the Village of Millersburg's management. Our responsibility is to express opinions on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the business-type activities of the Village of Millersburg, as of March 31, 2006, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated, June 30, 2006 on our consideration of Village of Millersburg's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be considered in assessing the results of our audit.

information on pages 39 through 42, are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

The management's discussion and analysis, on pages 3 through 13 and the budgetary comparison

### **Management Discussion and Analysis**

This section of The Village of Millersburg's annual financial report presents our discussion and analysis of The Village's financial performance during the fiscal year that ended on March 31, 2006. Please read it in conjunction with The Village's financial statements, which immediately follow this section.

### **FINANCIAL HIGHLIGHTS**

- The total cost of basic programs, excluding capital outlay and debt payments was \$164,595
- Revenues were at \$123,290 while expenses, capital outlay and debt payments were \$172,384
- The Village is paying on a lease with Ford Motor Company for a plow truck that is being rented by the Major and Local Street funds.
- The Village reduced its outstanding long-term debt by \$15,364.
- The Village has a positive fund balance in the General Fund of \$38,230
- The Village has positive fund balances in the Major and Local Street funds of \$500 and \$35,436 respectively.
- The Water fund has a positive net asset balance of \$446,999.

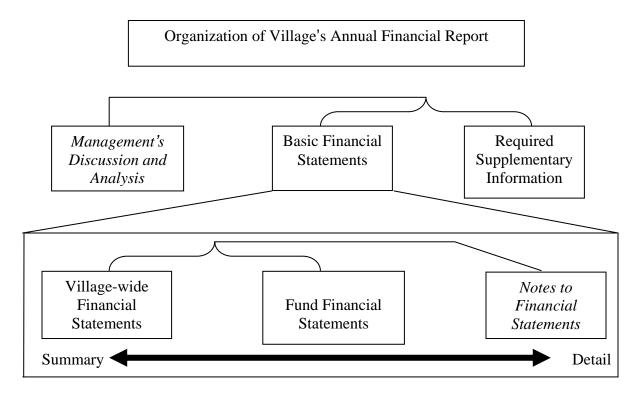

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements which include two kinds of statements that present different views of the Village, and required supplementary information.

- The first two statements are Village-wide financial statements that provide both short-term and long-term information about The Village's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Village, reporting the Village's operations in more detail. The governmental fund statements tell how basic services such as clerk and treasurer activities, board activities, building & grounds maintenance and street light operations were financed. The financial statements also include notes that explain some of the information in the statements and provide more detailed data.
- The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of The Village's budget for the year.

### **Management Discussion and Analysis**

The following chart illustrates how the various parts of this annual report are arranged and related to one another.

**Village-wide financial statements.** The *Village-wide financial statements* are designed to provide readers with a broad overview of the Village's finances, in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the Village's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Village is improving or deteriorating.

The *statement of activities* presents information showing how the Village's net assets changed during the recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

### **Management Discussion and Analysis**

Both of the Village-wide financial statements distinguish functions of the Village that are principally supported by taxes and intergovernmental revenues (*Governmental Activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*Business-type Activities*). The governmental activities of the Village include general government, public works (*which includes the public works expenses for Major and Local Streets*) and community promotions. The business-type activities of the Village are for Water distribution to the community.

The Village-wide financial statements can be found on pages 14 & 15 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Village can be divided into two of three categories normally used by governments: *governmental funds* and *proprietary funds*. The third category, *fiduciary funds*, is not currently used by the Village.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the Village-wide financial statements. However, unlike the Village-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the Village-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the Village-wide financial statements. By doing so, readers may better understand the long-term impact of the Village's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Village maintains three individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, major street fund, and the local street fund. These statements can be found on pages 16 & 17 of this report.

The Village adopts an annual budget for its general fund, major street fund, and local street fund. A budgetary comparison statement has been provided for the general fund, major street fund and local street fund. These statements can be found on pages 39 - 42 of this report.

### **Management Discussion and Analysis**

**Proprietary funds.** The Village maintains one proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the Village-wide financial statements. The Village uses the enterprise fund to account for its Water Department operations.

Proprietary funds provide the same type of information as the Village-wide financial statements, only in more detail. The basic proprietary fund financial statements can be found on pages 19 - 21 of this report. A budgetary comparison can be found on page 38 of this report.

*Fiduciary funds.* Fiduciary funds are used to account for resources held for the benefit of parties outside the government. As was mentioned earlier, the Village does not currently have a fiduciary fund.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the Village-wide and fund financial statements. The notes to the financial statements can be found on page 22 of this report.

**Required Supplementary Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Village's budgets. Comparison statements are provided to show budget to actual information and related variances. The required supplementary information statements can be found starting on page 39 of this report.

### VILLAGE-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Village, assets exceeded liabilities by \$692,556 at the close of the most recent fiscal year.

By far the largest portion of the Village's net assets (82%) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment, and infrastructure), less any debt used to acquire those assets that is still outstanding. The Village uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Village's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

### **Management Discussion and Analysis**

### Summary of The Village's Net Assets

|                                   | Governmen        | tal Activities | Business-ty | pe Activities | Totals     |            |  |

|                                   | ,                | ,              | ,           | ,             |            | ,          |  |
| Long-term Debt                    | 39,567           | 49,431         | 164,000     | 173,000       | 203,567    | 222,431    |  |
| Total Liabilities                 | 56,021           | 78,532         | 179,213     | 185,200       | 235,234    | 263,732    |  |
| Net Assets:                       |                  |                |             |               |            |            |  |
| <b>Invested in Capital Assets</b> |                  |                |             |               |            |            |  |
| Net of Related Debt               | 171,390          | 163,600        | 396,209     | 410,985       | 567,599    | 574,585    |  |
| Restricted                        | 36,829           | 73,276         | 20,767      | 23,700        | 57,596     | 96,976     |  |
| Unrestricted                      | 37,337           | 49,984         | 30,023      | 32,507        | 67,360     | 82,491     |  |
| <b>Total Net Assets</b>           | \$ 245,557       | \$ 286,860     | \$ 446,999  | \$ 467,192    | \$ 692,556 | \$ 754,053 |  |

An additional portion of the Village's net assets (13%) represents resources that are subject to external or internal restrictions on how they may be used. The remaining balance of *unrestricted net assets* \$67,360 may be used to meet the Village's ongoing obligations to citizens and creditors.

There was a decrease of \$20,193 in unrestricted net assets reported by the business-type activity (Water Department). A portion of this decrease was due to annual depreciation expense. The remainder of the decrease was due to interest expense on long-term debt owed to the Department of Agriculture for the water system.

### **Management Discussion and Analysis**

**Governmental Activities.** Governmental activities decreased the Village's net assets by \$41,305, thereby accounting for 68% of the total decrease in the net assets of the Village. Key elements of this decrease are as follows:

- Interest expenses paid on the Capital Lease Obligations for a new truck which is being rented to the Major and Local Street Funds.
- Depreciation expenses charged for amortization of the new truck and Village owned capital assets to include buildings, equipment, streets, sidewalks, and the bridge.

**Business-type activities.** Business-type activities decreased the Village's net assets by \$20,193 accounting for 32% of the total decrease in the Village's net assets. Key elements of this decrease are as follows:

- Interest paid on debt for the Water system infrastructure.
- Depreciation expenses charged for amortization of Water Department capital assets.

### **Management Discussion and Analysis**

### FINANCIAL ANALYSIS OF THE VILLAGE'S FUNDS

As noted earlier, the Village uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Village's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Village's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Village's governmental funds reported combined ending fund balances of \$74,167. Of this total balance, \$37,337 is *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of \$36,829 in the fund balance is reserved to indicate that it is not available for new spending because it has already been committed; 1) to cover \$94 in the tax collections cash account, 2) to cover community enrichment programs developed by the Village; namely the \$211 in the "Random Acts of Kindness" account and the \$430 in "Community Youth Program", 3) to cover the \$159 in the "Gertz Foundation" account, and 4) to cover the Major and Street Fund related fund balances for \$500 and \$35,436 respectively.

The general fund is the chief operating fund of the Village. At the end of the current fiscal year, unreserved fund balance of the general fund was \$37,337, while total fund balance was \$38,230. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 31.3% of total general fund expenditures, while total fund balance represents 32% of that same amount.

The fund balance of the Village's general fund decreased by \$29,988 during the current fiscal year. The key factor for this decrease is as follows:

- There was a matching outlay of \$9,799 for Elm Street work in conjunction with the Local Highway Fund.
- There was a contribution from the Gertz Foundation of \$15,000 for a new clock in the Village
- There was a decline of approximately \$4,000 in Shared Revenues from the state and an increase in expenses over the last year.

**Proprietary fund.** The Village's only proprietary fund provides the same type of information found in the Village-wide financial statements, but in more detail.

Unrestricted net assets of the Water Fund at the end of the year amounted to \$30,023. Other factors concerning the finances of this fund have already been addressed in the discussion of the Village's business-type activities.

### **Management Discussion and Analysis**

### **BUDGETARY HIGHLIGHTS**

The Village prepared annual budgets for the year. The budget had not been modified throughout the year.

The following variances between actual results and budgeted expectations for the Village's governmental funds are of particular interest:

- The General fund showed a favorable total revenue variance of \$9,143 over budgeted amounts and an unfavorable total expenditure variance of \$40,630 over budgeted amounts for a net unfavorable variance of \$31,487.
- The Major Street fund showed an unfavorable total revenue variance of \$784 under budgeted amounts, an unfavorable total expenditure variance of \$10,206 over budgeted amounts, and a favorable total transfer variance of \$524 under budgeted amounts for a net unfavorable variance of \$10,466.
- The Local Street fund showed a favorable total revenue variance of \$818 under budgeted amounts, an unfavorable total expenditure variance of \$3742 under budgeted amounts, and an unfavorable total transfer variance of \$4,905 under the budgeted amount for a net unfavorable variance of \$8,647.

The overall result of budget variances for all governmental funds was a total net unfavorable variance of \$50,600.

The Village had also prepared a budget for the Water fund to facilitate monitoring the proprietary fund's activities. The following variances between actual results and budgeted expectations for the Village's proprietary fund are of particular interest:

• The Water fund showed a favorable revenue variance of \$3,512 over the budgeted amount, an unfavorable total expense variance of \$3,379 over budgeted amounts, and a favorable total non-operating revenue variance of \$450 over the budgeted amount for a total net favorable variance of \$583.

### **Management Discussion and Analysis**

### **CAPITAL ASSET AND DEBT ADMINISTRATION**

### **Capital Assets**

During prior years and by the end of fiscal year ending March 31, 2006, the Village has invested \$786,530 in capital assets (net of accumulated depreciation). Prior to March 31, 2004, capital assets and related depreciation had not been reported in the governmental funds. The Village-wide *statement of net assets* includes capital assets as part of its asset balance just like a private-sector business would (e.g., the Water fund). The Water fund business-type activity has always included its capital assets in its statement of net assets.

In order to report capital assets on the statement of net assets for governmental activities, it was necessary to compile information on capital assets acquired by the Village as far back as twenty years ago. Depreciation rules were applied using the straight-line method and useful lives appropriate for the asset to determine the net book values of assets still held by the Village. This investment is comprised of capital assets included in the categories listed in the following summary:

### Summary of The Village's Capital Assets – Net of Depreciation

|                                   | Governmental E Activities |         | siness-type<br>Actvities | Total         |

|                                   | \$                        | 220,321 | \$<br>566,209            | \$<br>786,530 |
|                                   |                           |         |                          |               |

Additional information on the Village's capital assets can be found in Note 5 on page 28 of this report.

Major capital asset events during the current fiscal year included the following:

- Elm Street work came to \$19,598. General Fund paid 50% and Local Highway paid 50%. This was a 3% increase in capital assets net of depreciation during the fiscal year.
- All capital assets with net book values held by the Village were included in the Village-wide statement of net assets per GASB 34.

### **Management Discussion and Analysis**

### **Long-term Debt**

At the end of the current fiscal year, the Village's governmental activities had total long-term debt of \$48,931 consisting of a capital lease for a new truck.

The Village's business-type activity (Water Department) had total long-term debt of \$170,000 consisting of a revenue bond due to the Department of Agriculture for the Water system infrastructure and equipment.

### Summary of The Village's Outstanding Debt

|   | Governmental Activities |        |    | siness-type<br>Actvities | Total |         |  |
|---|-------------------------|--------|----|--------------------------|-------|---------|--|
| Governmental Activities:<br>Capital Lease Liability - Truck | \$                      | 48,931 | \$ | -                        | \$    | 48,931  |  |
| Business-type Activities:                                   |                         |        |    |                          |       |         |  |
| United States Dept of Agriculture                           |                         |        |    |                          |       |         |  |
| Revenue Bond  |                         |        |    | 170,000                  |       | 170,000 |  |
|   | \$                      | 48,931 | \$ | 170,000                  | \$    | 218,931 |  |

Additional information on the Village's long-term debt can be found in Note 8 on page 31 of this report.

Major long-term debt events during the current fiscal year included the following:

- \$11,850 in Capital Lease obligations, consisting of \$9,364 in principal and \$2,486 in interest, were paid during the fiscal year on the truck capitalized by the Village as a capital asset in its *statement of net assets* under governmental activities.
- The business-type activity (Water Department) paid \$6,000 in principal and \$9,083 in interest to the United States Department of Agriculture to reduce its obligation on the Revenue Bond.

### **Management Discussion and Analysis**

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Village's financial forecast is optimistic heading into the 2006/2007 Village year.

- The Village plans to expand the youth program during the next fiscal year and has received grant money from Presque Isle Electric to help with expenses.
- The millage rate will remain the same for the next fiscal year.
- Water fees are expected to remain the same for the next fiscal year.
- It is expected that revenue sharing with the state will continue to decline under current economic conditions.

### **CONTACTING THE VILLAGE'S FINANCIAL MANAGEMENT**

This financial report is designed to provide its readers with a general overview of The Village's finances and to demonstrate The Village's accountability for the money it receives. If you have questions about this report or need additional information, contact The Village's office at:

Village of Millersburg P.O. Box 135 5525 Main Street Millersburg, Michigan 49759

Village Clerk (989) 733-6337

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended March 31, 2006

### **Net Changes in Fund Balances - Total Governmental Funds**

\$ (49,094)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. In the statement of activities, these costs are allocated over their useful lives as depreciation.

Capital Outlay \$ 19,598 Depreciation (21,172)

(1,575)

Payments for Capital Lease principal is an expenditure in the governmental funds, but are not in the statement of activities (where it reduces long-term debt)

Debt Payments \$ 11,850 Interest in Payments (2,486)

9,364

**Change in Net Assets of Governmental Activities** 

\$ (41,305)

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Village of Millersburg, Michigan (the "Village") conform to accounting principals generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the significant accounting policies used by the Village:

### **Reporting Entity**

The Village is located in Presque Isle County and was organized in 1901 and covers an area of approximately 1 square mile. The village operates under an elected Board comprised of a President, Treasurer, Clerk and six Trustees.

### **Government – wide and Fund Financial Statements**

The government-wide ("Village-wide") financial statements (i.e., the statement of net assets and statement of activities) report information on all of the nonfiduciary activities of the Village. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, normally supported by taxes and intergovernmental revenues, are reported separately from *business type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privaleges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and proprietary funds even though the latter is excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Village-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as is the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this period, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Proerty taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

**General Fund** - The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. General Fund activities are financed by revenue from property taxes, state-shared revenue, and other sources.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

**Major Streets Special Revenue Fund** - The Major Streets Fund accounts for the resources of state gas and weight tax revenues, provided by the Michigan Transportation Fund, that are restricted for use on major streets.

**Local Streets Special Revenue Fund** - The Local Streets Fund accounts for the resources of state gas and weight tax revenues, provided by the Michigan Transportation Fund, that are restricted for use on local streets.

**Water Fund** - The Water Fund accounts for the activities of the water department system. This fund is financed primarily by user charges.

The Water Fund is considered a proprietary fund. Proprietary funds distinguish operating revenue from nonoperating items. Operating revenue and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of our single proprietary fund relates to charges to customers for water related services. The water department recognizes water usage fees, hydrant rentals and hook-up fees intended to recover current costs (e.g., labor, maintenance and supplies) as revenue. Operating expenses for our proprietary fund includes the cost of services, administrative cost, fringe cost, space cost, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

### **Property Tax Revenue**

The Village collects property taxes from its residents. Taxes are levied and become due and payable on July 1 of each year. The Village will collect these taxes until October at which time any unpaid tax bills are turned over to Presque Isle County Treasurer for final collections. On March 31 of each year, Presque Isle County determines the amount of levied taxes still due the Village since the previous October. At this time penalties and interest are assessed. The amount of uncollected taxes is disclosed as accounts receivable - delinquent taxes on the balance sheet at the year ending March 31, 2006. On March 31, 2006 the delinquent tax amount due from Presque Isle County was \$4,770 and should be received by the Village during the month of June, 2006.

Total taxable value for the Village is \$3.388 million with an operating millage rate of 6.5475 which generated total tax revenue for the fiscal year of \$22,496.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

### Assets, Liabilities and Net Assets or Equity

**Bank Deposits** – The Village's Cash and cash equivalents are considered to be cash on hand and are highly liquid. Cash and cash equivalents are comprised of checking accounts, savings accounts and certificates of deposit balances.

**Cash Investments** – When needed the Village investments only in certificates of deposit.

**Restricted Assets** – The Water Fund has two accounts that are restricted to facilitate paying the Long-term debt owed to the United States Department of Agriculture for water system capital assets. The general fund also has accounts which are restricted for property tax collections and other designated purposes for "Gertz Foundation" activities, "Random Acts of Kindness" activites, and "Community Youth Program" activities.

**Receivables** – There is a trade accounts receivable balance in the Water Fund for outstanding amounts due from customers for water fees, hydrant rental fees and hook-up fees. Pine Lumber Company owes the Village General Fund for Elm Street work. There also exists a property tax receivable for delinquent taxes that is paid to the Village by Presque Isle County during the month of June following the end of the fiscal year.

Activity between funds that are representative of amounts outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.g., administrative, space and fringe costs accrued on behalf of the fund by the general fund that are to be reimbursed to the general fund *or* amounts due to another fund that are required by law or regulation that has not yet been paid).

Capital Assets - Capital assets, which include property, plant, equipment and infrastructure (e.g., roads, bridges, sidewalks and similar items), are reported in the applicable governmental or business-type activities column in the government-wide financial statements. Capital assets are defined by the Village as assets with an initial cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

### NOTE 1- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Buildings, equipment, vehicles and infrastructure are depreciated using the straight-line method over the following useful lives:

| Roads, Bridges and Sidewalks        | 20 years     |
|-------------------------------------|--------------|
| Water Distribution System           | 40 years     |
| Buildings and Building Improvements | 40 years     |
| Vehicles                            | 5 to 7 years |
| Office Furnishings                  | 5 to 7 years |
| Other Equipment                     | 3 to 7 years |

**Long-term Obligations** - In the government –wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets.

**Fund Equity** – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

### NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds.

Prior to March 1st the Clerk submits to the Village Council a proposed operating budget for the fiscal year commencing the following April 1. The operating budget includes proposed expenditures and the means of financing them.

Public hearings are conducted at the Village Hall to obtain taxpayer comments. Prior to the third week in March, the budget is legally enacted through passage of a resolution. All budget adjustments are approved by Village Board resolution.

### NOTE 2 - BUDGETS AND BUDGETARY ACCOUNTING - Continued

Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds.

Budgets for the General, Special Revenue, and Capital Projects Funds (when the latter fund is required) are adopted on a modified accrual basis. Budgeted amounts are as originally adopted, or as amended by the Village Board.

The Village also established a budget for the Water Fund.

### NOTE 3 - CASH AND CASH EQUIVALENTS

The Village considers all regular deposits and certificates of deposit as cash equivalents since they are highly liquid assets.

All cash deposits of the Village are at FDIC insured banking institutions in the name of the Village of Millersburg. Act 217, PA 1982 authorizes the Village to deposit and invest in the accounts of federally insured banks, insured credit unions and savings and loan associations; bonds and other direct obligations of the United States, or an agency of instrumentality of the United States; United States government or federal agency obligation repurchase agreements; banker's acceptance legal for rating agencies within the three highest classifications maturing not more than 270 days after the date of purchase, and involving no more than 50 percent of any one fund. Michigan law prohibits security in the form of collateral, surety bonds, or other forms for the deposit of public money.

The Village's deposits are in accordance with statutory authority. The Governmental Accounting Standard Board (GASB) Statement No.3 risk disclosures for the Village's cash deposits are as follows:

The following is a schedule that shows cash and cash equivalent risk disclosure in terms of insured and uninsured balances:

|                           | Carrying Bank                 |         | Carrying       |         |    | FDIC    |      |       |
|---------------------------|-------------------------------|---------|----------------|---------|----|---------|------|-------|
|                           | A                             | Amount  | A              | Amount  | ]  | Insured | Unin | sured |
| Cash and Cash Equivalents | March 31, 2006 March 31, 2006 |         | March 31, 2006 |         |    | Amount  | Ame  | ount  |
| Citizens National Bank    | \$                            | 65,722  | \$             | 73,947  | \$ | 73,947  | \$   | _     |
| Huron National Bank       |                               | 56,348  |                | 56,344  |    | 56,344  |      |       |
| Total Cash                | \$                            | 122,070 | \$             | 130,291 | \$ | 130,291 | \$   |       |

### NOTE 4 – RECEIVABLES

The Delinquent Property Taxes receivable account, which has a balance of \$4,770 as of March 31, 2006. This balance is paid to the Village during the month of June by Presque Isle County. The Village was still owed \$2,000 from Pine Lumber for Elm Street work. The Water Department had an accounts receivable balance of \$3,659 for water fees due from customers as of March 31, 2006.

### NOTE 5 – CAPITAL ASSETS

Capital asset activity for the fiscal year ended March 31, 2006 was as follows:

|  | Beginning<br>Balance | Additions  | Deletions | Ending Balance |
|--|----------------------|------------|-----------|----------------|
| <b>Governmental Activities:</b>              |                      |            |           |                |
| Capital assets, not depreciated:             |                      |            |           |                |
| depreciated:                                 |                      |            |           | * ~            |
| Land   | \$ 51,064            | \$ -       | \$ -      | \$ 51,064      |
| Total capital assets, not                    |                      |            |           |                |

Detail of interfund transfers is as follows:

| Transfer Out                 | Amount            | Transfer In                  | Amount            |
|------------------------------|-------------------|------------------------------|-------------------|
| Major Street<br>Local Street | \$ 8,804<br>1,000 | General Fund<br>Local Street | \$ 3,500<br>6,304 |
| Total Transfers Out          | \$ 9,804          | Total Transfers In           | \$ 9,804          |

### NOTE 7 - RETIREMENT PLAN

The Village initiated a money purchase plan effective as of 7/1/91. The trustee/agent is the Lappan Insurance Agency, Alpena, Michigan. Under the terms of the pension plan the Village will fund the plan at 14% of gross payroll. During the fiscal year ending March 31, 2006 the Village contributed a total of \$2,959 to the plan which represents \$2,834 for 14% of \$20,242 in gross wages for those who were eligible and a \$125 renewal charge for the plan. Summer help for the youth program were not included.

### **NOTE 8 - LONG-TERM DEBT**

Long-term liability activity for the fiscal year ended March 31, 2006, was as follows:

|  | В  | eginning           |          |          |    |                | Ending                   |

### <u>Capital Lease – Truck</u>

The Village entered into a capital lease for a Sterling Dump Truck. The total lease price with fees came to \$88,040. The interest rate on the lease is 5.50% and the monthly payments are \$987. The lease will be complete after 84 payments in the fiscal year 2011. At the end of the lease, the Village will purchase the truck for one dollar. The following shows future scheduled minimum lease obligations until the lease is paid in full:

|                             |    |         |        |            | Pres  | ent Value  |

### NOTE 9 - FUND BALANCES AND NET ASSETS - Continued

The following shows the reserved and unreserved net assets of the Water Department enterprise fund.

|  | 3/31/2006  |
|--|------------|
| Investment in Capital Assets - Net of Related Debt | \$ 396,209 |
| Restricted Net Assets - Cash Investments           | 20,767     |
| Unrestricted Net Assets                            | 30,023     |
| Total retained earnings                            | \$ 446,999 |

### <u>NOTE 10 – GASB 34 REPORTING MODEL – MARCH 31, 2005 - REQUIRED IMPLEMENTATION</u>

Starting with the FYE 3-31-05, the Village was required to adopt a new accounting model based on GASB 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. GASB 34 significantly changes financial reporting for governmental entities. Two new Village-Wide financial statements are required in the new model, designed to provide more useful information. Governmental fund accounting statements are still used, but the general fixed assets and the long-term debt account groups are no longer used. General fixed assets and long-term debt are incorporated into the two new Village-wide financial statements. Reconciliations are necessary to show the differences between the Village-Wide statements and the fund accounting statements.

GASB 34 also requires that a Management Discussion and Analysis (MD&A) section and a Required Supplementary Information (RSI) section be included in an audit or review report. The MD&A is meant to be an objective and easily readable analysis of the Village's financial activities prepared by Village management. The RSI requires that budgetary information be included after the notes to the financial statements. These budgetary information schedules will show the original budget, the final budget, the actual activities for the fiscal year and the variances between final budget and actual activities.

Comparitive numbers for the Village's Net Assets and Changes in Net Assets are displayed in the MD&A for the first time this fiscal year.

Notes to the Financial Statements March 31, 2006

# NOTE 11 – RECONCILIATION OF VILLAGE-WIDE AND FUND FINANCIAL STATEMENTS

## 1) Explanation of certain differences between the governmental fund balance sheet and the Village-wide statement of net assets

The governmental fund balance sheet included a reconciliation between *fund balance* – *total governmental funds* and *net assets* – *governmental activities* as reported in the Village-wide statement of net assets. One element of the reconciliation explains that:

"long-term liabilities are not due and payable in the current period and therefore are not reported in the funds."

Another element of the reconciliation explains that:

"capital assets used in governmental activities are not financial resources and therefore are not reported in the funds"

The following is an explanation of the differences stated above:

| Capital Lease Liability Element   | \$<br>(48,931) |
|---|----------------|
| Capital Assets Element:   |                |
| Capital Assets acquired in prior years \$ 314,940                               |                |
| Capital assets acquired during the current year 19,598                          |                |
| Less: Accumulated Depreciation (114,217)  |                |
| Total   | <br>220,321    |
| Net adjustment to increase fund balance - total governmental funds to arrive at |                |
| net assets - governmental activities  | \$<br>171,390  |
| <b>Total Fund Balance - Total Governmental Funds</b>                            | \$<br>74,167   |
| Net Reconciling Adjustment  | <br>171,390    |
| <b>Total Net Assets - Governmental Activities</b>                               | \$<br>245,557  |

Notes to the Financial Statements March 31, 2006

### NOTE 11 – RECONCILIATION OF VILLAGE-WIDE AND FUND FINANCIAL STATEMENTS- Continued

# 2) Explanation of certain differences between the governmental fund statement of revenues, expenditures and changes in fund balances and the Village-wide statement of activities

The governmental fund statement of revenues, expenditures and changes in fund balances included a reconciliation between *net changes in fund balances – total governmental funds* and *changes in net assets – governmental activities* as reported in the Village-wide statement of activities. One element of the reconciliation explains that:

"Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense."

#### Another element of the reconciliation explains that:

"Payments for capital lease obligations is an expenditure in the governmental funds, but are not in the statement of activities (where it reduces long-term debt)."

The following is an explanation of the differences stated above:

| Capital Outlay Element:  |              |                |
|--|--------------|----------------|
| Capital assets acquired during the current year  | \$<br>19,598 |                |
| Less: Accumulated Depreciation   | (21,172)     |                |
| Total  |              | \$<br>(1,575)  |
| Capital Lease Principal Payments Element   |              |                |
| Debt Payments  | \$<br>11,850 |                |
| Less: Interest in Payments   | <br>(2,486)  |                |
| Total  | <br>_        | <br>9,364      |
| Net adjustment to decrease net changes in fund balance - total governmental funds to arrive at |              |                |
| changes in net assets of governmental activities   |              | \$<br>7,789    |
| Net Changes in Fund Balances - Total Governmental Funds  |              | \$<br>(49,094) |
| Net Reconciling Adjustment   |              | 7,789          |
| Changes in Net Assets of Governmental Activities   |              | \$<br>(41,305) |

# INDEPENDENT AUDITORS' REPORT OVER INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Village Council of The Village of Millersburg Millersburg, Michigan

We have audited the basic financial statements of the Village of Millersburg as of and for the year ended March 31, 2006, and have issued our report thereon dated June 30, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Village of Millersburg's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

To the Village Council of The Village of Millersburg Page 2

#### Compliance

Standards.

As part of obtaining reasonable assurance about whether the Village of Millersburg's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no

instances of noncompliance that are required to be reported under Government Auditing

We noted certain matters that we have reported to the management of the Village of Millersburg in a separate letter dated June 30, 2006.

This report is intended for the information of the Council of the Village of Millersburg, its management, the State of Michigan and the United States Department of Agriculture. However,

Midwest Professionals PLLC

this report is a matter of public record and its distribution is not limited.

June 30, 2006

To the Village Council of The Village of Millersburg Millersburg, Michigan

#### MANAGEMENT LETTER

In planning and performing our audit of the financial statements of the Village of Millersburg for the year ended March 31, 2006, we considered the Village of Millersburg's internal control to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on internal control.

However, we noted certain matters involving internal control and its operation that we consider to be reportable conditions under standards established by the American Institute of Certified Public Accountants. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of internal control that, in our judgment, could adversely affect the Village of Millersburg's ability to initiate, record, process, and report financial data consistent with the assertions of management in the financial statements.

#### PRIOR CONDITIONS, RECOMMENDATIONS AND STATUS:

#### **Prior Condition & Recommendation**

Periodic review and amendments of budgets have not been done to keep a better handle on expenditures. It was recommended that budgets should be reviewed by council and management at least quarterly to provide an opportunity to monitor and amend the budgets as needed. The council and management need to be conservative when planning and amending budgets to experience positive results for the Village. It is recommended that expected revenues be scrutinized more closely to consider economic conditions the state and the surrounding area are dealing with. It is likely that revenue sharing revenues will continue to decrease and expenses will continue to increase. This means that budgeting is crucial to the survival of the Village. It must be reviewed often and amended appropriately.

#### **Current Status**

The council needs to be more aggressive while reviewing and amending budgets to adjust for changing revenue and expenditure conditions. Although all funds maintain positive fund balances, all required budgets showed unfavorable over budget variances.

#### **CURRENT CONDITIONS & RECOMMENDATIONS:**

#### Documentation of Expenditures

#### Condition

Check disbursements do not always have invoices or other support attached to substantiate the expenditure.

#### Recommendation

The filing of invoices to go with check disbursements must be improved to insure that proper documentation supports all expenditures.

#### Water Receivables

#### Condition

The reports from the water billing software and the accounts receivable control account are not being reconciled monthly to insure that water clients' proper balances are accurate.

#### Recommendation

Reconcile the water billing software's record of invoices and payments to the accounts receivable records in Quickbooks every month to clear up any discrepancies or problems with balances owed by water users.

This report is intended solely for the information and use of the Village Council, management the State of Michigan, and the United States Department of Agriculture and should not be used by anyone other than those specified parties.

Sincerely,

Gaylord, MI
